

Blended Intensive Program

Sustainability in Action: **Sustainable and resilient entrepreneurship through interdisciplinary and international collaboration**

If you are interested to explore the economic dimensions of sustainability while working in international, interdisciplinary teams, apply for the upcoming Blended Intensive Program organized by the University of Skövde in Sweden.

Bachelor students will engage in real-life cases from local stakeholders, and will develop valuable insights into how organizations and individuals can contribute to positive change for a more sustainable future.

Virtual: Two online pre-sessions in early January 2026 and one post event in February 2026 (dates *TBD*).

On site: [University of Skövde](https://www.skovde.se), Sweden 02-06 February.

Who can participate: **Bachelor** students of UoC from all disciplines
