

Blended Intensive Program

AI and labour market transformation

If you are interested to explore how artificial intelligence is reshaping the world of work, employment structures, and required skills across industries and societies, apply for the upcoming Blended Intensive Program organized by the University of Sofia, Bulgaria.

Bachelor students will gain a solid understanding of how AI is transforming labour markets and will be better prepared to navigate and shape their future careers in an increasingly digital and AI-driven economy.

Virtual: Two online pre-sessions in May 2026 (dates *TBA*).

On site: [Medical University, Sofia](#), Bulgaria 01-05 June 2026.

Who can participate: **Bachelor** students of UoC from all disciplines

ΠΑΝΕΠΙΣΤΗΜΙΟ ΚΡΗΤΗΣ
UNIVERSITY OF CRETE
