

Blended Intensive Program

Science meets Industry Ethical AI Development

“Gheorghe Asachi” Technical University of Iasi (TUIASI), brings together students, academics, and industry experts to explore how **Artificial Intelligence (AI)** is transforming industries and research fields across Europe and globally. This program addresses a pressing need for interdisciplinary education on AI ethics, tailored to the diverse academic backgrounds of students from all disciplines. If you are a **Master** or **PhD Students** and you would to understand the fundamental ethical principles and challenges in AI apply for this five days Blended Intensive Program in Romania.

Virtual: Two online pre-sessions in early January 2026 and one post event in February 2026 (dates *TBD*).

On site: [“Gheorghe Asachi” Technical University of Iași](#), Romania – 26-30 January.

Who can participate: Master and PhD students of UoC from all disciplines
