

Blended Intensive Program

Science meets Industry

Driving Innovation Through Industry Challenges

“Gheorghe Asachi” Technical University of Iasi (TUIASI), organizes a BIP that brings together academia and industry by tasking interdisciplinary MSc and PhD student groups with addressing concrete challenges provided by industrial partners, from different domains, e.g., smart cities and mobility, digitalization and AI, etc, that can drive innovation forward.

If you are a **Master** or **PhD Students** and you would to define and frame problems in ways that foster meaningful, innovative solutions, apply for this five days Blended Intensive Program in Romania.

Virtual: Two online pre-sessions in early January 2026 and one post event in February 2026 (dates *TBD*).

On site: [“Gheorghe Asachi” Technical University of Iasi](#), Romania – 26-30 January.

Who can participate: Master and PhD students of UoC from all disciplines
