

Dear Sir/Madam,

Greetings from Volga State University of Water Transport (VSUWT), Russia!

Our university is searching for a partner to launch cooperation in Erasmus+ K1 International Credit Mobility. We are interested in academic exchange both for students and staff.

We would be very pleased to find out that our universities have areas of common interests, which could be the basis for developing mutually beneficial cooperation. As for VSUWT is concerned, the university comprises Institute of Economics, Management and Law, Shipbuilding, Hydraulic and Environmental Engineering Faculty, Navigation Faculty and Faculty of Electromechanics.

We would be truly delighted to be your partner in ERASMUS+ K1 project.

Apart from collaboration within Erasmus+ programs we would welcome any idea of bilateral cooperation.

Unfortunately at present there are no programs in English at VSUWT. But now we are developing a new Master program "Resource-efficient Production Logistics" which will be taught in English. The launch is scheduled for October, 2020. By the way this program is being developed in the framework of Erasmus+ K2 Capacity Building which could be another opportunity of our collaboration.

Please, find attached a booklet about VSUWT.

Also here are links to the films about Volga State University of Water Transport:

We kindly request you to let us know if you are interested in collaboration between our universities.

Should you have any suggestions or questions, please do not hesitate to contact me.

Best regards,

Irina Glotova
